# Personalized Investment Strategy

At Brighthouse Financial, we believe annuities can play an important role in building a holistic financial strategy.

One way to help ensure you have enough money to last throughout your retirement is to invest in a portfolio that has the potential to weather a variety of market conditions. FlexChoice Access, an optional living benefit rider,<sup>1</sup> offers the opportunity to design an investment strategy that aligns with your financial goals – you can select from the available asset allocation and risk managed global multi-asset portfolios or choose to build a more customized portfolio from the individual investment options available.

---

<sup>1</sup> FlexChoice Access is referred to as the Guaranteed Lifetime Withdrawal Benefit (GLWB) in the prospectus and is available for an additional annual charge.

Investment performance is not guaranteed.

This brochure is part of a Brighthouse Financial variable annuity kit. It is not intended to be a stand-alone marketing brochure.

While diversification through an asset allocation strategy is a useful technique that can help to manage overall portfolio risk and volatility, there is no certainty or assurance that a diversified portfolio will enhance overall return or outperform one that is not diversified.
