How a Brighthouse Shield Level Annuity Can Diversify a Portfolio

A Brighthouse Shield® Level Select 6-Year Annuity offers growth opportunities by linking to well-known market indices. And with a level of downside protection, it can help limit the impact of market volatility.¹ Plus, a Shield annuity features no annual fees.²

Sound like a good strategy? This guide lets you plug in your numbers and see it in action.

Protect retirement assets

A Brighthouse Shield Level Annuity provides a level of protection to help ensure that losses are limited when markets turn volatile.

Participate in growth opportunities

With a Shield annuity, balance is built in. This means that even with a guaranteed level of protection, there are opportunities to take advantage of market growth.

Pay no annual fees

Unlike many financial products, there are no annual fees with a Shield annuity.

Let's Get Started

To see how a Shield annuity can be customized, follow the step-by-step instructions below and place the corresponding answers on the following page.

-
- 01 Purchase Payment** – Also known as the premium, it's the portion of retirement assets placed into the contract.
-
- 02 Term** – The term is the number of years that a Shield Option (combination of term, index, level of protection, and either a Cap Rate or Step Rate) is in effect. Your financial professional can provide you with term lengths that are available within your contract.
-
- 03 Index** – The annuity can track your choice of indices: S&P 500[®] Index, Russell 2000[®] Index, and MSCI EAFE Index.^{A,B,C}
-
- 04 Shield Level of Protection** – Also known as the Shield Rate, it provides protection for your investment up to a certain percentage. Your financial professional can provide the options available.
-
- 05 Cap Rate or Step Rate** – There are two rate options to choose from. Cap Rate is the maximum performance that can be earned at the end of the term based on index performance. Step Rate credits a predetermined percentage of growth if index performance is either flat or up at the end of the term. In exchange for a predetermined percentage of growth, Step Rates are generally lower than Cap Rates for the same Shield Options. Cap Rates and Step Rates will vary based on the selected term, index, and level of protection.
- New contract rates can be obtained from your financial professional or on www.brighthousefinancial.com/shieldrates.
-
- 06 Average Index Price Returns** – These are the historical 1-, 3-, and 6-year price returns of the available indices on a rolling monthly basis (referred to as observations). Please reference the historical price returns chart on page 04 to find this percentage.
-
- 07 Historical Success Rate** – This is the likelihood that the investment will stay flat because losses are fully protected by the Shield Rate or increase in value over the course of the term, using historical price returns of the available indices. This number can be found on page 04.

Shield annuities – built to help you reach your goals

Choosing a Shield annuity for a portion of your retirement assets provides exposure to equities by linking to well-known indices. And with the built-in level of protection offered, it can help you stay invested for the long haul, knowing that a portion of any index loss can be protected when markets turn volatile.

Helping to smooth out the highs and lows that come with investing in equities can make a Shield annuity a valuable part of a retirement portfolio.

Historical index price returns

The chart below reflects the historical 1-, 3-, and 6-year price returns of the available indices on a rolling monthly basis (referred to as observations). Rolling monthly periods include returns in overlapping cycles starting the last day of each month. For example, Jan. 31, 2018 through Jan. 31, 2019, followed by Feb. 28, 2018 through Feb. 28, 2019, are overlapping 1-year rolling periods.

The numbers in the table reflect historical price returns since their respective inception dates.

- ¹ Participate in rising markets up to your Cap Rate or Step Rate. The issuing insurance company will absorb losses up to your level of protection in falling markets. Your account value will be reduced by any negative index performance beyond your elected level of protection. If you do not elect the Fixed Account, you could see a substantial loss if the market declines more than your level of protection.
- ² Withdrawals may be subject to withdrawal charges.

This material must be preceded or accompanied by a prospectus for Brighthouse Shield Level Select 6-Year Annuity, issued in New York only by Brighthouse Life Insurance Company of NY, which contains information about the contract's features, risks, charges, and expenses. Clients should read the prospectus, which is available from their financial professional, and consider its information carefully before investing. Brighthouse Financial has the right to substitute an index prior to the end of a term if an index is discontinued or we determine that our use of such index should be discontinued.

Brighthouse Shield Level Select 6-Year Annuity is a long-term investment designed for retirement purposes. It has limitations, exclusions, charges, termination provisions, and terms for keeping it in force, and is not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which it was purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Because the client agrees to absorb all losses beyond their chosen Shield Rate, there is a risk of substantial loss of principal. Please refer to “Risk Factors” in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.
