

Brighthouse Shield® Level Annuity

Historical Price Returns

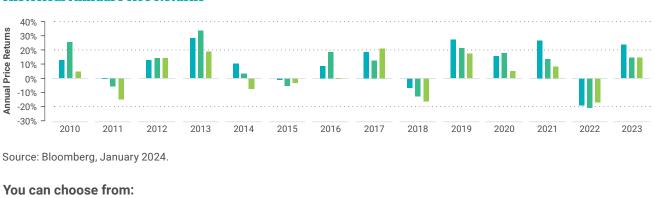

This material provides a general overview of Brighthouse Shield[®] Level Select 6-Year Annuity, a single premium deferred annuity product referred to as "Shield[®] Level annuity" or "Shield[®] annuity." Please refer to the product fact card and prospectus for complete details. Product availability and features may vary by firm.

Understanding Your Index Choices

Over the long term, history has shown that equities can be a powerful way to help grow your assets and keep pace with inflation. But caution is warranted. Over the short term, equities don't always travel in an upward direction and may stumble.

A Brighthouse Shield[®] Level Annuity can help you invest for the long term while feeling comfortable with the amount of risk you're taking. Help protect a portion of your retirement assets and participate in opportunities that may provide stronger growth potential than you could get with some conservative investments¹ by tracking up to three indices with a Shield annuity. These indices are diversified among large-cap, small-cap, and international stocks.² You can use this guide to help familiarize yourself with the indices tracked by a Shield annuity and to review their historical annual price returns.³

Historical Annual Price Returns

S&P 500[®] Index^A

A Shield annuity immediately puts money to work and allows participation in some of the growth opportunities the market offers up to the Cap Rate or Step Rate. At the end of each term, the index value at the beginning and end of the term will be compared – factoring in the level of protection as well as the Cap Rate or Step Rate – which will result in a new account value.⁴ The fact card enclosed in your Shield annuity materials provides more information. Your financial professional can also tell you which options and indices are available with your Shield annuity.

Russell 2000[®] Index^B

Past performance does not guarantee future results. Market indices referenced are not managed and are used as a measurement of the value of a section of the stock market. Information about indices is provided to illustrate historical market trends and does not represent the performance of any specific investment. Performance does not include dividends. You cannot invest directly in an index.

Note: A Shield annuity does not invest directly in any index.

S&P 500 Index

The index represents 500 large-cap stocks from leading companies in leading industries of the U.S. economy, capturing approximately 80% coverage of U.S. equities.

Historical Performance Since 1957

Over the past 67 calendar years, the S&P 500 Index has experienced losses at the end of 18 of those years. Of those 18 down years:

- 5 years experienced a loss of greater than 15%
- 7 years experienced a loss of 10-15%
- 6 years experienced a loss of less than 10%

Historical annual price returns are not representative of past or future performance for any Shield Option. Actual performance may be greater or less than what is shown. Performance may differ due to the level of protection and either the Cap Rate or Step Rate. Shield annuities do not invest directly in any index. Performance does not include the reinvestment of dividends.

Russell 2000 Index

The index captures the performance of the small-cap segment of U.S. equities and includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership.

Historical Performance Since 1970

Over the past 54 calendar years, the MSCI EAFE Index has experienced losses at the end of 18 of those years. Of those 18 down years:

- 9 years experienced a loss of greater than 15%
- 3 years experienced a loss of 10-15%
- 6 years experienced a loss of less than 10%

Historical annual price returns are not representative of past or future performance for any Shield Option. Actual performance may be greater or less than what is shown. Performance may differ due to the level of protection and either the Cap Rate or Step Rate. Shield annuities do not invest directly in any index. Performance does not include the reinvestment of dividends.

Brighthouse Shield Level Annuity

Protect retirement assets

A Brighthouse Shield Level Annuity provides a level of protection to help ensure that losses are limited when markets turn volatile.

Participate in growth opportunities

With a Shield annuity, balance is built in. This means that even with a guaranteed level of protection, there are opportunities to take advantage of market growth.

Pay no annual fees

Unlike many financial products, there are no annual fees with a Shield annuity.⁵

- ¹ Conservative investments have varying levels of risks, and contain different features and guarantees.
- ² Diversification does not ensure a profit or protect against a loss. Brighthouse Financial reserves the right to substitute any index at any time.
- ³ The annual price returns of each respective index are measured using the closing index value on the last business day of each year.
- ⁴ In the contract and prospectus, the level of protection is referred to as Shield Rate.
- ⁵ Withdrawals may be subject to withdrawal charges.

This material must be preceded or accompanied by a prospectus for Brighthouse Shield Level Select 6-Year Annuity, issued in New York only by Brighthouse Life Insurance Company of NY, which contains information about the contract's features, risks, charges, and expenses. Clients should read the prospectus, which is available from their financial professional, and consider its information carefully before investing. Brighthouse Financial has the right to substitute an index prior to the end of a term if an index is discontinued or we determine that our use of such index should be discontinued.

Brighthouse Shield Level Select 6-Year Annuity is a long-term investment designed for retirement purposes. It has limitations, exclusions, charges, termination provisions, and terms for keeping it in force, and is not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which it was purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Because the client agrees to absorb all losses beyond their chosen Shield Rate, there is a risk of substantial loss of principal. Please refer to "Risk Factors" in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax, or accounting advice. Clients should confer with their qualified legal, tax, and accounting professionals as appropriate.
