Participate in rising markets up to your Cap Rate or Step Rate. The Shield Rate (level of protection) accrues daily and fully accrues on the term end date. If there is negative index performance at the end of a term, the issuing insurance company will absorb losses up to the level of protection for the selected Shield Option and your account value will be reduced by any negative performance beyond the level of protection. If you do not elect the Fixed Account, you could see a substantial loss if the index declines more than your level of protection.

Note: Allocations to a Shield Option are not invested directly in an index.

New Money Rate Lock Procedure: The interest rates for Cap Rate, Step Rate, and Fixed Account are guaranteed for 60 days from the date the application is signed if the application is received by Brighthouse Financial Annuity Service Center within 7 calendar days of the application signed date. If the application is received after 7 calendar days, you will receive new guaranteed interest rates for Cap Rate, Step Rate, and Fixed Account for 60 days at the then-current rates. If your contract is issued beyond the 60-day time period, you will be given the then-current rates that are applicable for your Shield Option(s) as of the contract issue date.
